Tracking Transfers: Ohio Public Two Year First Time Students 2011-12 Cohort

Tuesday, October 23, 2018 3:33 PM

Dear Provosts and Chief Academic Officers:

I am pleased to present you with reports on key aspects of transfer behavior and graduation outcomes for students attending Ohio's public two-year institutions of higher education. The reports have been prepared separately for individual two-year public institutions.

The reports use data on first-time students at Ohio's public two-year colleges in 2011-12. A previous similar study had investigated the same questions using data on first-time students attending Ohio's public two-year colleges in 2010-11. A set of charts show the comparison of the key results on transfer and graduation outcomes between the first-time cohorts from 2010-11 and 2011-12.

You can access the results from the following link:

https://www.ohiohighered.org/content/transfer_in_and_transfer_out_statistics_first_time_two_year_college_sample_2011_12_cohort. You also can access the 2010-11 Cohort Data Reports from the same site.

The reports include the following statistics:

- a. Number of students enrolled in the institution in 2011-12.
- b. Number of students transferring to four-year institutions in the following six-year period.
- c. Transfer numbers as proportions of the 2011-12 enrollment.
- d. Transfers numbers and proportions: By types of destination institutions.
- e. Transfer numbers: For the five most prominent transfer destinations.
- f. Graduation rates: Overall rates, rates by transfer destination types, and for prominent transfer destinations.

The reports were prepared by Dr. Shoumi Mustafa, Senior Research Analyst at the Ohio Articulation and Transfer Network. Please direct your questions to him at smustafa@highered.ohio.gov.

Thanks,

Paula
